

## Tutorial: Uploading Your Jewelry Inventory

### OVERVIEW

<b>Description:</b>	In this section, you can: 1. <a href="#">Add a single item to your inventory</a> 2. <a href="#">Upload your inventory using an excel file</a> 3. <a href="#">Upload via FTP Transfer</a> 4. <a href="#">Edit or delete existing inventory</a> 5. <a href="#">Add pictures to your uploaded inventory</a> 6. <a href="#">Create a zip file for your images</a> 7. <a href="#">Learn about jewelry file upload formats and requirements</a>
<b>Need Help:</b>	<a href="mailto:support@polygon.net">support@polygon.net</a> 1-800-221-4435 (select '3' for Support in the menu options)

### Useful Tips:

- Add pictures to your inventory, making the item more attractive to potential buyers
- Add the location of your items to ensure your item will not be missed in a customer's search
- Keep your inventory up to date; make sure you have correct pricing and delete items that have been sold
- Put in as much information as you have to avoid answering the same questions time after time

### HOW TO

#### 1. Add a single item to your inventory

- Go to "My Account"
- Go to "Inventory"
- In the jewelry section, click on "Add Single Item"

My Account (7) Forums Marketplace Auction Diamonds Jewelry Colored Stones Watches Trade Directory

Inbox (7) **Inventory** Profile Connections (0) Feedback Invoicing (0) Preferences

- Fill in the template with as much information as you can
  - You must fill in the required information section
  - When adding prices do not include the \$ or commas, these will be added for you. You can use up to 2 decimal points in the price.
  - Add pictures if possible, including certificate images when possible
  - Weight must include a decimal point and can take up to four (4) decimal places. Don't use the word "carat" or any abbreviation, just a number including a decimal point (Examples: .45, 0.93, 1.29, 2.0103).
- Click "Add Item" and your item will be available to members in 1-3 minutes

## 2. Upload your inventory using an excel file

### Useful Tip:

- In order to successfully upload inventory, you must first create a file that respects the Polygon format. Please refer to [section 7](#) in this document for information on accepted formats.

- Go to "My Account"
- Go to "Inventory"
- In the jewelry section, click on "Upload from File"

The screenshot shows the 'My Inventory' section of the Polygon website. The top navigation bar includes 'My Account (7)', 'Forums', 'Marketplace', 'Auction', 'Diamonds', 'Jewelry', 'Colored Stones', 'Watches', 'Trade Directory', 'Inbox (7)', 'Profile', 'Connections (0)', 'Feedback', 'Invoicing (0)', 'Preferences', 'Message', 'New Topic', and 'Post Ad'. The 'Inventory' tab is highlighted with a red box. The 'Jewelry' section is expanded, showing 'Active: 16' and 'Expired: 0'. It includes links for 'Advanced Search', 'Add Single Item', 'Upload From File', and 'Manage Virtual Inventory Access'. The 'Watches' section shows 'Active: 0' with links for 'Advanced Search', 'Add Single Item', and 'Upload From File'. The 'Diamonds' section shows 'Active: 16' with links for 'Advanced Search', 'Add Single Item', and 'Upload From File'. The 'Parcels' section shows 'Active: 0' with links for 'Add Single Parcel' and 'Upload From File'. On the right, there are 'Selling Tools' (My Images, Tutorials) and 'Inventory Settings' (Listed Currency).

- Step 1: Select your Inventory File
  - Click on the **<Browse>** button to select your inventory file.
  -
- Step 2: Choose the type of Update
  - The **<Delete>** option will delete all jewelry in your inventory and add the ones from the selected file.
  - The **<Update>** option will update your jewelry inventory and add the ones from the selected file.
  -
- Step 3: Select your certificates and image file (optional)
  - Click on the **<Browse>** button to select the zip file containing your certificates and images.
  - Please refer to the [Add Images to Uploaded Jewelry](#) section below to find out more.

*Please note that you only need to upload an image file once. All images are kept in the **My Images** section whether they are used by an inventory item or not. This means once an image is uploaded it can be used at any time in the future by simply specifying the certificate or image filename in the inventory upload file. You can also find and use any previously uploaded image when you add jewelry online.*

### Step 4: Upload your Inventory File

- Lastly, click on the <Upload> button.

## Diamonds - Upload Inventory

[Add Single Item](#) | [Add Matched Pair](#) | [Manage and Edit](#) | [Reverse Filters](#) | [Manage Virtual Inventory Access](#)

A screenshot of the 'Diamonds - Upload Inventory' page. A large red arrow points to the 'Upload multiple items using a file' section. The page includes fields for 'File Name' (with a 'Browse...' button), 'Action to take on your inventory' (with radio buttons for 'Delete all your Items and only add the ones from the selected file.' and 'Update and add the Items from the selected file.'), and 'Associate an image file (optional)' (with a 'Browse...' button and a '(.zip)' label). At the bottom are 'Upload' and 'Click Upload' buttons. Callout boxes provide instructions: 'Browse to find your excel file on your computer' points to the 'Browse...' button; 'The Jewelry template can be downloaded here' points to a link for 'Download our Diamond Template'; 'Choose to delete your inventory and replace or just add and update' points to the action selection; and 'Use Browse to Select your zip file of images' points to the 'Browse...' button for images.

*Please note it could take between 10-15 minutes for the upload to go through. Once the inventory has been uploaded, you will receive a direct message within your inbox advising you that the transfer has been completed successfully. Should any errors occur within the upload process, it will be specified within the direct message.*

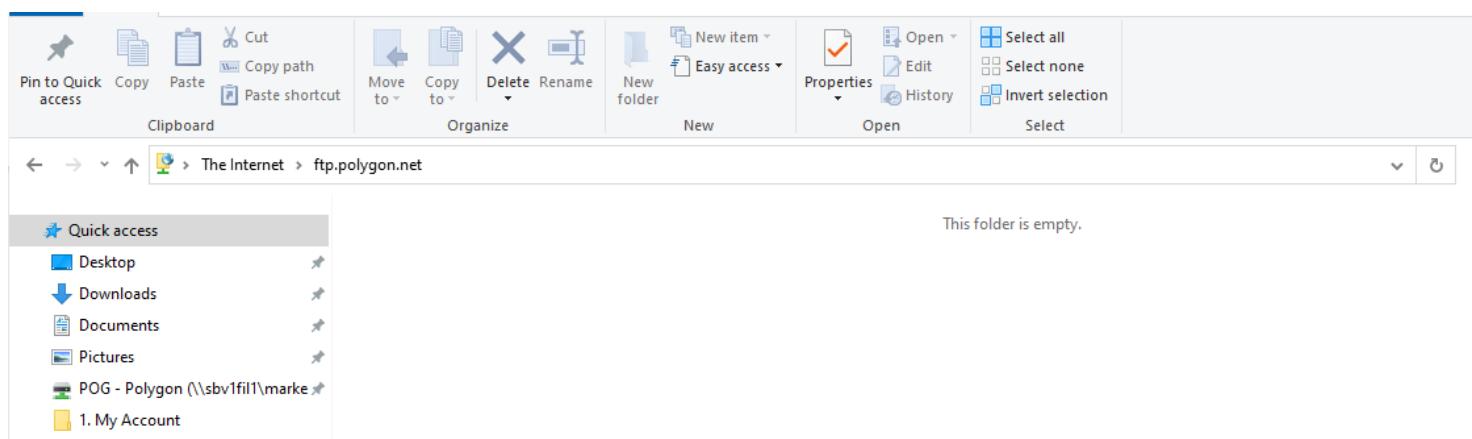

### 3. Upload via FTP Transfer

- *FTP uploads can be done through Polygon's FTP server instead of through the website. This works best for member who have large inventory files and large attachments. This information can also be provided to inventory software management tools for automatic uploads.*
- **Rename your file**

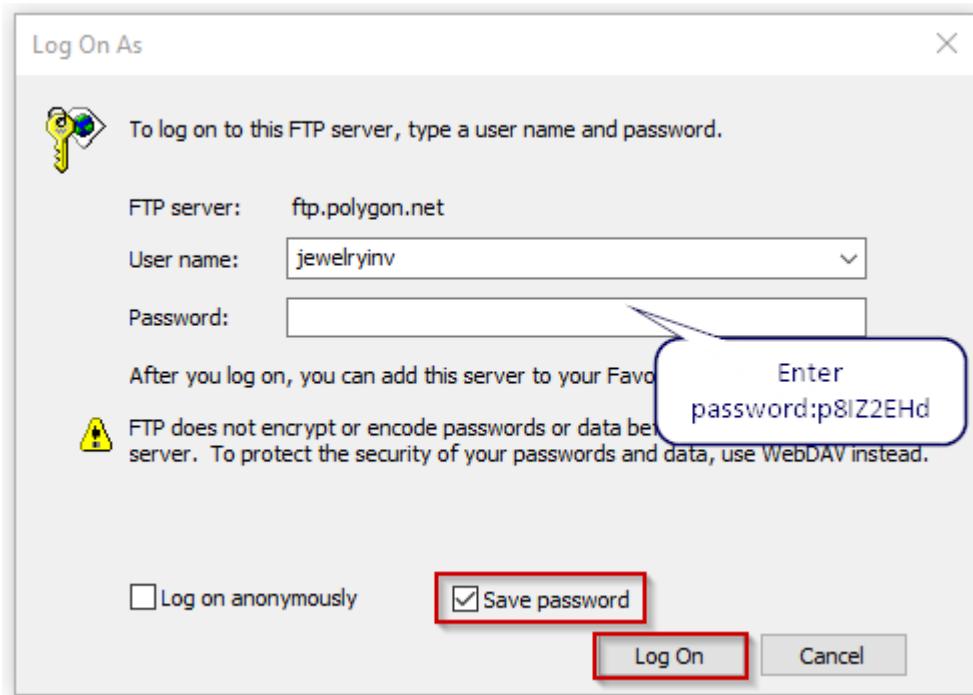

Attachment file  
Pos#1 username  
Pos#2 date ( YYYYMMDD )  
Pos#3 always prod  
Pos#4 import mode ("a" | "c") as they are online,(a) append to inventory, or (c)delete all current inventory and add this file.  
Pos#6 folder code ("CS" = "Colored Stones", "DM" = "Diamond", "DP" = "Diamond Parcel", "JW" = "Jewelry", "WA" = "Watch" ) \*\*\* optional but recommended \*\*\*

- **Examples:**
  - *Inventory File: 92258\_20210311\_prod\_c\_JW.csv*
  - *Image Zip File: 92258\_20210311\_prod\_c\_JW.zip*
- *Please note for reoccurring uploads the date does not need to change each time*
- **FTP Details:**
  - <ftp://jewelryinv@ftp.polygon.net/>
  - [Login Details](#)
    - **User Name: jewelryinv**
    - **Password: p8IZ2EHd**
- **FTP Transfers can be done directly through your computer if you are not using an inventory manage software.**
  - In the address bar of the new window type in: <ftp://diamondinv@ftp.polygon.net/>

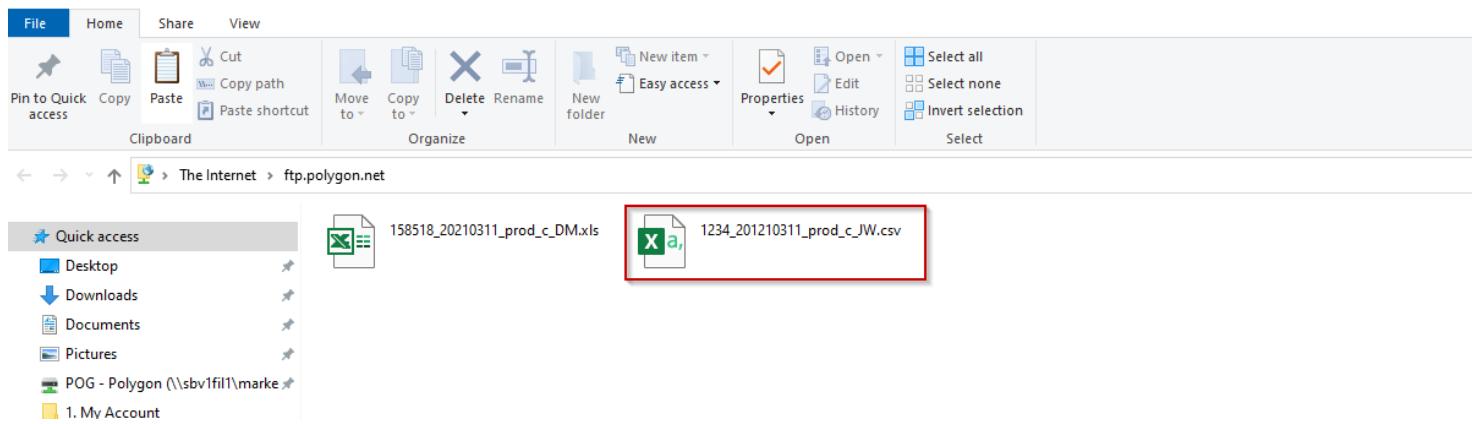

- You will be prompted for a User Name and Password
  - Enter User Name: jewelryinv
  - Enter Password = **p8IZ2EHd**
  - Check the Box <Save Password>
  - Click on the button <Log On>

- Drag and drop your file into the window
  - *This process could take awhile, you will receive a message in your inbox when upload is complete*

#### 4. Edit or delete existing inventory

- Go to “My Account”
- Go to “Inventory”
- Click on “Manage/Edit” in the Jewelry section

My Inventory

Make your changes and click Save

## 5. Add pictures or certificates to uploaded inventory

- Go to “My Account”
- Go to “Inventory”
- In the “Selling Tool’s” box click on “My Images”

The screenshot shows the 'My Inventory' section of the Polygon website. At the top, there is a navigation bar with various links: Home, My Account (5), Forums, Marketplace, Auction, Diamonds, Jewelry, Colored Stones, Watches, Trade Directory, and a search icon. Below the navigation bar, there is a secondary menu with links: Inbox (5), Inventory (highlighted with a red box), Profile, Connections (0), Feedback, Invoicing (0), Preferences, Message, New Topic, and Post Ad. The main content area is titled 'My Inventory' and contains sections for 'Diamonds' and 'Watches'. Each section has a 'Manage/Edit' link. To the right, there is a 'Selling Tools' sidebar with a 'My Images' link, which is also highlighted with a red box and has a red arrow pointing to it. Below the sidebar, there is an 'Inventory Settings' section with a 'Listed Currency' link.

- Go to “Upload Images”

The screenshot shows the 'Manage My Images' page. At the top, there is a 'Upload Images' button, which is highlighted with a red box. Below it, there is a 'Search my Images' section with fields for 'Text Criteria' (Code/Filename) and 'Title', and a 'Search' button. To the right, there is a 'Matches : 0' section with a 'Delete' button and a grid/line icon. At the bottom, there is a 'Current Total: 0' message and an 'Image Folders' section.

- You can add your pictures one by one or upload a zip file
  - Choose the correct folder using the drop down arrow (diamonds, jewelry, colored stones, watches)
  - Click Browse to find the image or zip file on your computer
  - Click “Upload”

## Manage My Images - Upload

The screenshot shows two upload options:

- Upload your Images one by one here:** This section contains five input fields for file names, image titles, and destination folders. Each field has a 'Browse...' button. The 'Destination Folder' dropdown for the 4th file is highlighted with a red box. A callout bubble says: "Choose Jewelry from the Destination Folder drop down".
- Upload multiple Images using a zip file:** This section has a 'Zip File Name' input field, a 'Folder' dropdown, and 'Upload' and 'Cancel' buttons. A callout bubble says: "Upload using a zip file here- file cannot exceed" and "Browse to choose your zip file from your computer".

At the bottom, there is an 'Add' button with a dropdown menu, a note: "Add [ ] more lines. (You can add up to 10 images)", and 'Upload Images' and 'Cancel' buttons.

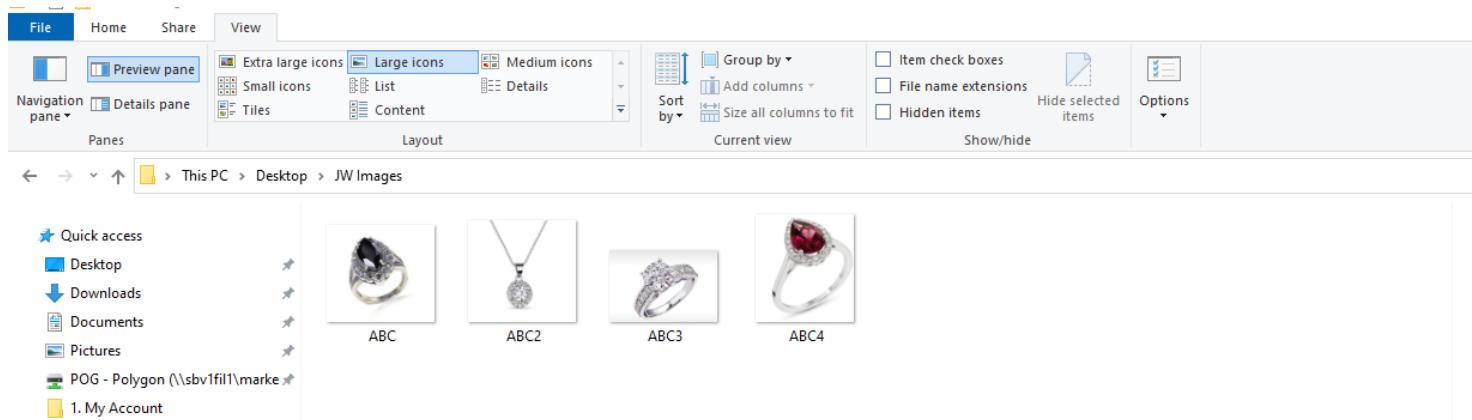

- You will receive a message in your inbox letting you know if the images were successfully upload or if any errors occurred
- After the images are upload you must connect your inventory file with the images
  - To link a photo with an inventory item you will need to enter the image name in the Image column of your inventory file.
  - Do not include spaces or symbols in the image name. Make sure that what is entered in the data file exactly matches the image name that you have included in your image zip file. For example, to make it easy use your stock number, such as HM1302. Once you have filled in your data file you can now re-upload this file and your images will attach.

- **Jewelry:**

	A	B	C	D	E	F	G	H	J	K
1	SKU	Keywords	Availability	Wholesale Price	Product Type	Description	Gender	Metal Type	Image Filename 1	Image Filename 2
2	HM1302	Diamond, Ring	In Stock	2000	Ring	Diamond Ring	Female		HM1302	
3										
4										
5										

## 6. Create a zip file for your diamond images & certificates

- Open the file on your computer that contains all your images
  - We recommend naming your images by the stock number or certificate name
  - We also recommend reducing your images to 300 pixels wide by 300 pixels high with a medium to semi-excellent resolution rating.

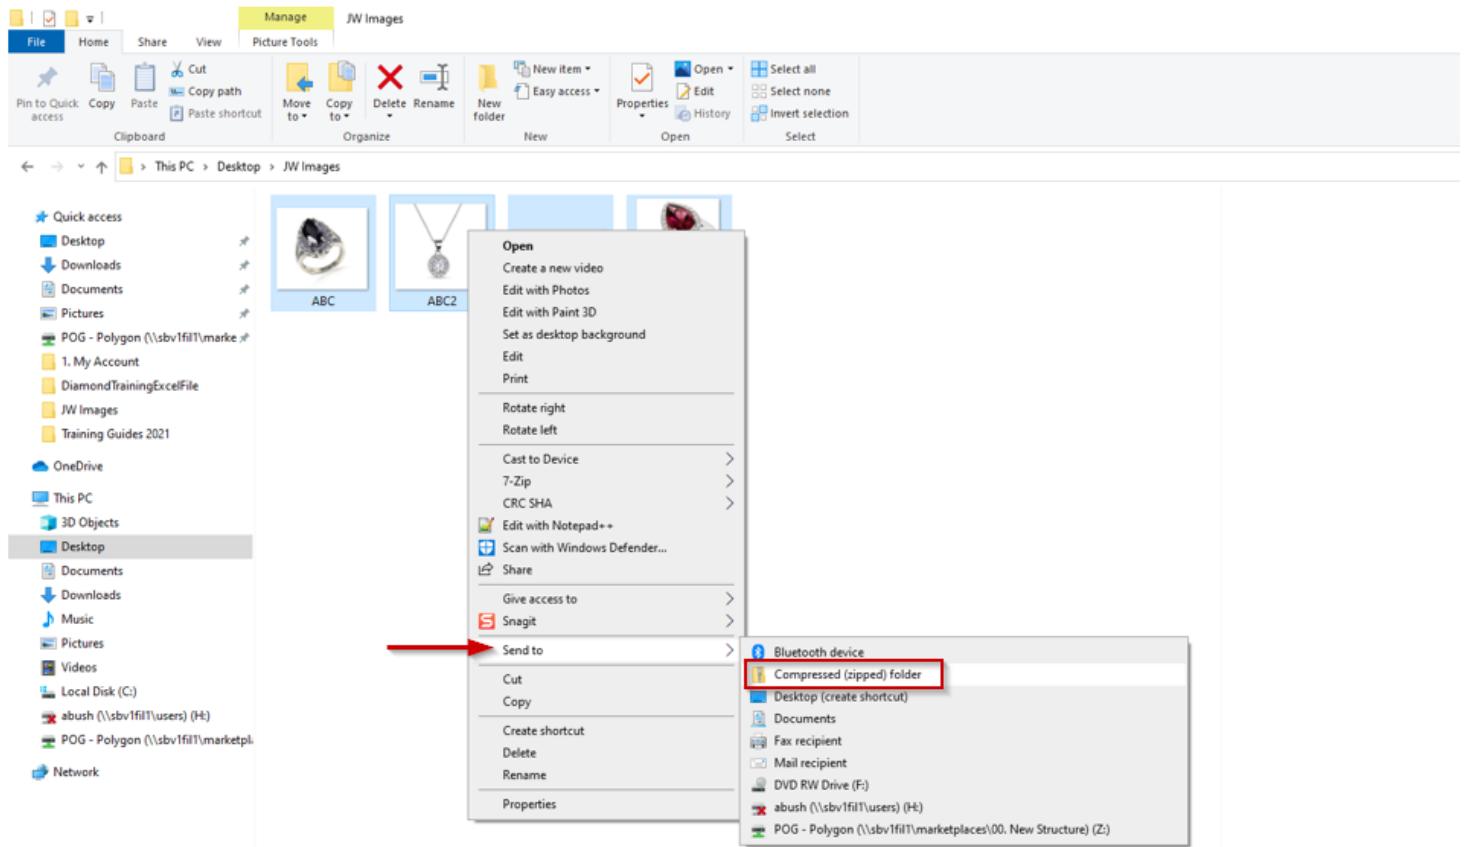

- Select All

- Right click on your selected images and choose “Send to” “Compressed (zipped) Folder”

- Name your new zip file

## 7. Jewelry File Upload Formats & Requirements

The Jewelry file format can either be a CSV (comma separated values) or an Excel spreadsheet. If you wish to use the Excel format, you can download our Diamond Excel Template as a starting point.

The Jewelry format allows you to send columns of information in any order as long as the column names are correctly specified in the first row. This is already done in our Excel template but if you are creating a file from scratch, please refer to the table below for the correct names for each column.

**Mandatory fields** are the following:

- **SKU**
- **Keywords**
- **Availability**
- **Wholesale Price**
- **Product Type**
- **Description**
- **Metal Type**

All other fields are optional but we encourage you to send as much information as possible in order to give your inventory the most visibility possible. For any field you do not wish send us, simply leave the column blank or remove the column entirely.

For numbers, be sure to use the number zero, not the text letter "O". Do not enter any symbols such as percent signs (%) or dollar signs (\$).

Column Position	Column Name	Accepted Values
1	A	<b>SKU</b>
